

NOTICE

It is to inform all the interested students, that an educational visit to Polavaram Dam will be organized by the NSS Unit of the college on 30th November 2018.

The visit aims to provide students with an opportunity to witness one of the biggest dam projects in India and learn about the technical and engineering aspects of its construction. It will also help students understand the ecological impact of the project and its importance in the overall development of the region.

All interested students are advised to register their names with the NSS Unit Coordinator and obtain the necessary permissions from their respective departments. The registration process will begin on 25th November 2018 and will close on 27th November 2018.

Participants are requested to assemble at the college premises by 7:30 AM sharp on the day of the visit. They should carry their college ID cards, water bottles, and wear comfortable clothing and shoes suitable for the field trip.

Please note that the visit is purely educational, and any kind of misconduct or indiscipline will not be tolerated. Students are advised to strictly adhere to the rules and regulations of the visit and cooperate with the college authorities and the designated coordinators.

We look forward to your active participation in this informative visit.

D.S. GOVT. DEGREE COLLEGE FOR WOMEN
ONGOLE-523 001.

Name of the activity	:Polavaram Dam visit
Date	:30th November 2018
No. of students attended	:129
Venue	Polavaram Dam
Organised by	: NSS Unit, DS Govt Degree College for Women, Ongole

On 30th November 2018, 129 students of DS Govt Degree College for Women, Ongole, visited the Polavaram Dam, which is located on the Godavari River in the state of Andhra Pradesh, India. The visit was organized under the guidance of the college principal Dr D. Anjaneyulu and the NSS Unit coordinator Smt P. Yamini Ammaji.

The students were enthusiastic about the trip, and they arrived at the college early in the morning. The college provided transportation to the dam site, and the students reached there by 10:00 am. The students were divided into groups and were assigned a guide who explained the features of the dam and its construction.

The students learned about the Polavaram Dam's significance, which is one of the largest irrigation projects in the world. The dam is being constructed to provide water to the farmers in the surrounding regions and generate hydroelectric power. The students were excited to learn about the dam's features and how it would benefit the state's development.

The students also had the opportunity to witness the construction work, which was in progress at the dam site. They saw the massive machines and equipment used for constructing the dam and the progress made so far. The students were impressed by the enormity of the project and the technology used in its construction.

The students also got to see the nearby Polavaram village and interact with the locals. They learned about the village's culture and lifestyle, and the difficulties they face due to the construction work. The students were grateful for the opportunity to see the project's impact on the surrounding community.

The visit to the Polavaram Dam was a great learning experience for the students. They gained practical knowledge about the project's significance and how it would benefit the state's development. The visit was well-organized and executed, and the students appreciated the efforts made by the college administration and the NSS Unit coordinator Smt P. Yamini Ammaji.

In conclusion, the visit to the Polavaram Dam was a successful and enriching experience for the students, and it helped them appreciate the importance of large-scale infrastructure projects in the country's development.
