17. Does the Institution have Management Information System ?

Yes

If yes, give a brief description and a list of modules currently operational (maximum 500 words)

Students admission for the last three years is has increased gradually due to the sincere efforts made by both the faculty and supporting staff. The admissions of students through online

process is taken up by the institution using the APSAMS website. SAMS is Student Academic Management System software especially designed for the student's admission by CCE, AP. Students will apply online for admission, our admission committee will follow up and confirm with the database collected from students through emails messages. Attendance: It is very Important thing for higher education institutions to monitor their student's attendance. since olden days it was assumed that regular attendance leads to higher knowledge, best marks, and a more satisfying educational experience, especially if they were academically weaker or if the students have the low potential. It is suggested that a progressive approach to attendance monitoring is the most effective asset of every institution. Our college has introduced the smart biometric attendance system, i.e. hourly attendance through IAMS Mobile app provided by Government of Andhra Pradesh, Commissionerate of collegiate education, it is the new adaption of smart system which replaces the traditional approaches. We take count of every period of every class by respective subject faculty using IAMS app. The reliability is the main advantage of smart biometric system which clearly shows the presence of a student in a class. In teaching learning process, all required academic documents are going to be uploaded and updated regularly through systems in college. Mostly in science subjects, the method of teaching is through PPT presentations, video clippings etc., but in arts and commerce curriculum is delivered fore mostly through traditional methods. Our College social media pages i.e. Facebook and Twitter is regular with updating all college activities for awareness on societal issues and health activities. Being a district nodal college, Eoffice is our administrative weapon to render amenities to district wide higher education administrative services. Our Library is automated with N list library, to cater the needs of both faculty and students. ICT infrastructure and system maintenance: We have 4 working LCDs, 3 basic smart

boards for digital teaching 30 working computers and also 30 Laptops given by APSSDC for the digital needs of our students with internet connection of 3 points with speed of 100MBPS, we also have Printers, scanners Xeroxing facilities available in college. Our computer dept staff will maintain the systems regularly for better performance. Regular backup, password protection etc will be maintained periodically with integrity. Each system is adequately provided for appropriate security, antivirus and password management systems. Also, we have 20 KWH solar energy plant system. Student performance evaluation: Our Jawahar Knowledge centre staff are going to facilitate online registration for exam and share online results to the students. Our examinations committee work under university instruction during examinations and send internal assessment promptly through online submission before final examination. So far, we are taking hard copies of feedback from students on faculty, curriculum parent feedback and other feedback forms and we are uploading scanned copies.

CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Our Institution has a well-organized curriculum delivery and documentation. curriculum planning is an important aspect in the teaching-learning process. Our college is affiliated to the norms and conditions of Acharya Nagarjuna university, Nagarjuna nagar, Guntur. Our faculty is informed about the curriculum of their subjects prescribed by the university and accordingly asked to prepare the teaching plan. The faculty those who are in need of orientation and refresher courses are deputed by the Commissionerate of collegiate education, AP, to attend these courses at academic staff college recognised by the UGC. A meeting was conducted in the beginning of the academic year to discuss about the various teaching methodologies and to prepare an academic calendar of the college. The academic activities, extracurricular activities, cultural, patriotic days celebrations, workshops etc going to be conducted in the college are framed in the annual curricular plan. Institution plans for effective teaching and learning process in following stages and methods 1. Prior to the commencement of classes 2. During the Course of semester in the academic year 3. After the End of instruction day. Program wise curriculum/ syllabus for the semesters is provided by University. Each program of the department is elaborated in terms of Program Outcomes (POs) which are aligned with graduate attributes. Furthermore, Curriculum is defined in terms of Course

Outcomes (COs) for every course taught for effective deployment of the curriculum. Formulation of institute's Academic Calendar for the semester is done at the beginning of each semester in which academic measures like Class tests, assignments and Mid exams is effectively done. Time table, syllabus and academic calendar, are provided to all teachers, students. During the Course of semester after commencement of Classes Academic dairy is maintained by every faculty. Daily Classes and practical sessions are observed by HODs. All students are divided and allotted to a lecturer for ward counseling sessions on personal, academic and career counseling. We maintain a good rapport with parents as well. University examinations are conducted as per schedule. On declaration of university results, Compilation of result analysis sheet of students of each class is done by the departments. The college has conducted workshops, training programmes for improving the quality education in enhancing the effective transmission of curriculum. Computer laboratory and digital class rooms are of greater use in making teaching more effective. Virtual classes are of its best kind where there is no faculty for a particular subject. Library is rich in reference books and INFLIBNET supporting the students and faculty in learning and teaching. Feedbacks are collected from students on faculty, infrastructure, and curriculum. Parents feedback is collected on curriculum through discussion once in a year. The discussions with students on the curriculum and teaching learning process are of great use in understanding the proper implementation of the curriculum. Use of JKC, Language labs, Science labs, career- counseling programs and Job mela are introduced by the college proved to be very supportive for students, also helped in achieving the objectives of the curriculum.

Feedback Obtained
<p>There is a great importance of feedback in improving learning experience for the students. This has also significant effect in professionalizing teaching in the higher education level. As our students are from rural background, traditional way of feedback forms is still continuing. This can also help in expertise the teaching of lecturers in higher education. Feedback is considered as a pillar in higher education arena as it is recognized as an essential element of improving the learning process of the students. Considering feedback and its value and effectiveness in student learning, is a dynamic approach to help student development as well as teacher. The impact of feedback on future preparation on teaching techniques, monitoring, evaluation etc will be pivotal. In higher education, there should be a realistic mark of similarity between the goals set by students and the goals initiated by the teacher. The importance given to the role of students in contributing to quality assurance and enrichment will be resulted through various mechanisms, such as Student</p>

satisfaction data which should influence future planning. The outcomes from questionnaires are discussed as per programme level in their respective departments by the evaluation. A brief report of findings regarding virtual learning are noted in the minutes of the department discussion and will be circulated. Feedback on Teachers: Institute collects students' feedback of 21 questions which are answered by students on every teaching faculty of their respective class. These suggestions are implemented for the better performance of faculty of Institute. Feedback on faculty teaching, sincerity, evaluation methods etc are collected from the students. The feedback is analysed by Internal Quality Assurance Cell along with in charges of Departments and Vice Principal. The concern of faculty is admired. Feedback on Infrastructure: Students are in need of separate reading room in library, cycle stand and food corner. Safe drinking water system, digital class rooms etc are appreciated by the students. Feedback of Alumni: Alumni meet is arranged in every academic year, where feedback is collected, regarding physical facilities, library, curriculum etc. Alumni association had expressed their desire to register their association in next year and to involve more in the academic related activities useful to the both students and community. Parents' Feedback: Faculty are always in contact with the parents. They are encouraged to meet HOD once in semester. Regular parent meets are arranged to get feedback from them in enhancing the curriculum enrichment. Parents are very happy with the cultural activities, awareness programme on competitive examination, ECO club activities, NSS camp and sports. They suggested for the early completion of constructions, recruitment of regular staff for commerce subject. They had appreciated the training programmes conducted on tailoring, candle making and communication skills. Parents requested the college to conduct more agriculture related activities as most of students are farmer kids. Employer/Industrialist Feedback: we also collect the opinion of Employer and Industrialists every year on quality of curriculum and enhancement of other parameters of institution. ? Attendance mentoring : Our college has introduced the smart bio-metric attendance system it is the new adaption of smart system which replaces the traditional time taking process maintaining attendance records in order to reduce the unnecessary manipulations and common errors. It also extends to take the roll of every period which should be taken by respective subject lecturers by using IAMS app. The reliability is the main advantage of smart bio-metric system which clearly shows whether the student absconds from a class. It's also cost-effective and it doesn't require more electricity as it's made up of sophisticated manufacturing features. Features and accuracy of the unique qualities of student attendance monitoring. It's also easier to install and implement within no time. ? Personal mentoring Ward counselling : Our College has been conducting ward counselling, for this every lecturer has been allotted with a class. Later they are supposed to collect the student profiles which are filled with their personal details like name, address and the unique issues facing personally. Then the lecturers are supposed to offer confidential remedies with one to one appointments and group based support by the Peer educators. Lecturers have been organizing the workshops on different issues as the part of ward counselling ? Academic mentoring a) Grouping the students: Our college has initiated the forward step on 'grouping the students' which will be classified into three parts 1. Slow Learners 2. Moderate Learners 3. Advanced Learners The classification has taken place by affirming the students academic performance and classroom internal responses. The students, being considered slow learners are suggested to adopt simple learning techniques and provided with the easiest learning tools. And moderate learners are supposed to write assignments and advanced or encouraged to hold the project works and expected to draw the required outcomes. b) Remedial classes: Every department of Our college has been adopting the practice of taking the remedial classes for the students who are lag behind in the respective subjects. The in-charge of the department designs a time table and conducting remedial classes ahead of introducing curriculum of the next semester. Every lecturer has to take a part of conducting remedial classes. They're mainly conducted to assist the students in order to achieve the competencies in the area of difficulty. Here the student can access the flexible class participation and elimination of barriers of time and space. It's completely self-motivated and self-regulated. Here the lecturers have to provide the positive experience and to ensure the effectiveness of remedial courses. The crucial feature of remedial class is usage of variety forms of instruction providing academic advice and heartfelt support, everlasting, encouraging and facilitating for the fruitful learning outcomes.

DS Government Degree College for women ongole initiated to adapt the many best practices which enhance the potential and equip the students with them appropriate skills and human values. 1.Offering cash prizes to the students of academic excellence The best practice of offering cash prizes to the students

from all disciplines who performed their excellence during recent semester examinations, plays a significant role in moulding the character of students towards the social appreciation and charity. In addition, it can sensitize all the students on the importance of academic excellence and motivates them in order to put forward the skills and efforts in the field of education. On the occasion of Annual Day celebrations, the lecturers from all departments have conducted a meeting under the chairmanship of the principal and she has constituted a few committees to perform the different duties on the day. Out of these, the committee for endowment prizes is supposed to identify the students who excelled during the recent semester examination by consulting in charge of departments in order to sort out the names nominated for all the subjects. After identifying the list, the lecturers come forward voluntarily to offer cash prizes to the students of Excellence. 2. Honesty box Maintenance of honesty box would remain note-worthy best practice of the college. It will accommodate the minds of the students with morality and self realisation. Besides, the students can be compassionate and empathetic towards the victims of losing money or other valuable possessions. Under the chairmanship of the principal, A committee of students has been constituted in order to maintain honesty box. A metallic box titled honesty box has been installed in front of the principals chamber. If any student finds money or valuables within the college premises, they are supposed to drop it into the box and it must be recorded by the committee. Later, it will be announced at the Assembly and honesty of the students can be appreciated.

8.Future Plans of Actions for Next Academic Year

Future plans of the Institution for the academic year 2019-20: D.S.Government degree college for women, Ongole, though it is in urban area, it is flourished by rural women students. We strongly believe that right values are not discovered through the societal or traditional norms, only an individual's thoughtfulness can unveil them. Thus, the prominence for quality education and outcomes depend on one's perception. In spite of care and nurture provided in the way of 'mentoring,' we plan to undertake the following strategies for the integrated development of the students and the college efficacy for the academic year 2019-20. The college administration and academic automation initiatives will be continued and the paper less administration will be given pivotal importance during this academic year. The college is under active consideration for smart campus under RUSA which creates a world of opportunities for infrastructure growth and expansion in development. Our college already began to gear itself to meet the needs for the NAAC appraisal. Also Faculty will be trained on the recent changes in the NAAC procedures to enable for smooth transition to the online mode of evaluation for NAAC. Feedback is an essential part of real learning. The importance of constructive feedback allows for many beneficial improvements. Feedback provides a foundation for positive curriculum and suggestions for improvement in education. So, from this year we are planning for online feedback. It is essential to first set goals and then determine which skills need to be addressed in order to reach that goal. By linking skill enhancement to long term goals, we ensure the motivation and desire to build that skill. Each student must begin by completing an assessment to measure her current skill and competencies. To enhance skill development activities, we provide the students with various skills available and explain their advantage for the industry like improvising soft skills, making them comfortable with interview session etc., After they decide their area of interest, we help them in acquiring the necessary materials and train them accordingly. Students must be trained before they enter the society and they must receive ongoing training even when they work in the classroom. We are going to conduct more certificate courses for students in this academic year. All these certificate training gives students the greatest chance of success as they meet new challenges in education. Academic subject-specific training is generally organized but value added or life skill certificate courses will enable students to understand the theories studied with more detailed and hands on practice within a real job situation. It helps students to gain their self-confidence and discover their own ability along with team work. It can also be a practice to the working environment they will face later in future. A strong emphasis will be laid on promoting research culture among the young teaching faculty. We are encouraging our young faculty to register for Ph.D. The existing senior faculty will also be encouraged to go for publications.
